

Integrated video overlay and recording system for PAL/NTSC video

Example: 2 channel configuration

BOTH OVERLAY AND LOGGING IS INTEGRATED IN 4U RACK PC

Features:

- Up to 4 channel Video overlay, individual/same overlay on all channels
- Up to 4 channel recording, MPEG2 format
- Supports Composite PAL, NTSC video standard
- **Well proven system - same VIGRA and Videologger software used by more than 300+ Videologgers in the subsea industry**
- Live preview during recording
- Stillpicture snapshot during recording and during playback.
- Video event log linked directly to video pictures. Video events are typed in by operator, or easy point&click operation from predefined list.
- Easy retrieval of video clips by double-clicking on video events. Video playback will then start off exactly at the position where event was linked to the video.
- Summary video compilation to Video DVD.
- Removable hddrives for extended storage.
- 4U rack PC

Input/outputs:

(2 channels – actual ports layout might change)

- Up to 4 x BNC input for live input video
- Up to 4 x BNC output for live output video w/overlay
- Up to 4 x BNC input + audio for recording
- 4 serial ports and 2 Ethernet port for data-interfacing to survey/ROV/etc
- VGA / DVI port for Windows monitor
